Frontend	HTML, CSS, JavaScript
Programming	Python, Java
Databases	MySQL, Supabase
Tools	GitHub, Visual Studio Code
IT Support	Computer maintenance, troubleshooting, software installation, networking, data management, technical support

PROJECTS

Ola's Fastfood Website

Built a restaurant website to showcase food and provide customers with an online ordering experience. Used HTML, CSS and JavaScript for the frontend and Supabase for backend/database functionality.

Live demo: olamide-cloud.github.io/olas-fastfood • Repository: GitHub

Restaurant Admin Dashboard

Developed an administrative interface for managing restaurant orders, menu information and restaurant data, with Supabase used for data-related functionality.
